# THE RESULTS OF THE APPROBATION OF THE IMPROVED TEACHING MATERIALS

Erasmus+ project No. Nr. 2021-1-LV01-KA210-SCH-000031400  
“On The Way To Self Directed Learning”

Jelgava Regional Correspondence School  
Final Conference, Jelgava, February 8, Year 2023

# The purpose of the approbation

---

To find out whether the improved teaching materials, taking into account the characteristics of the types of perception (auditory, visual, kinesthetic), promote self-directed learning skills for learners.

# The most important tasks of approbation

---

1. Check whether the improved learning materials promote learners' self-directed learning.
2. Realize mutual exchange of experience between pedagogues.
3. Test the improved learning materials adapted/suitable for all types of perception.

The teachers involved in the project, as well as the teachers in the school, are involved in the creation of the improved teaching materials.

---

---

## **Respondents involved in the approbation**

Students of Jelgava Regional Correspondence School

**194 respondents**

Survey time: January, 2023

## **Achievable result of approval**

1. Respondents have assessed that the new learning material is easier to understand and promotes learning.
2. Respondents have evaluated what directly helped to perceive the information and what did not, do these types of materials shorten the learning time?
3. Respondents with a specific type of perception mark those things in the learning material that help them learn the learning material more successfully, because they perceive it easier/faster/more understandable.

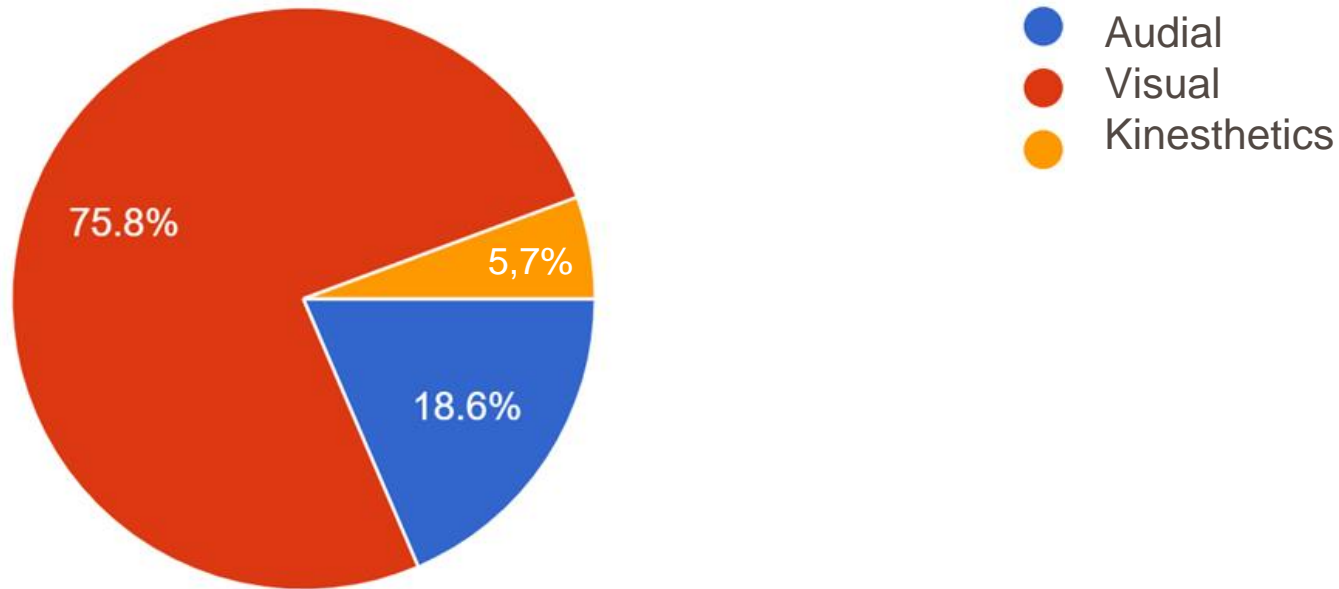

# APPROBATION RESULTS

# Indicate your dominant type of perception

---

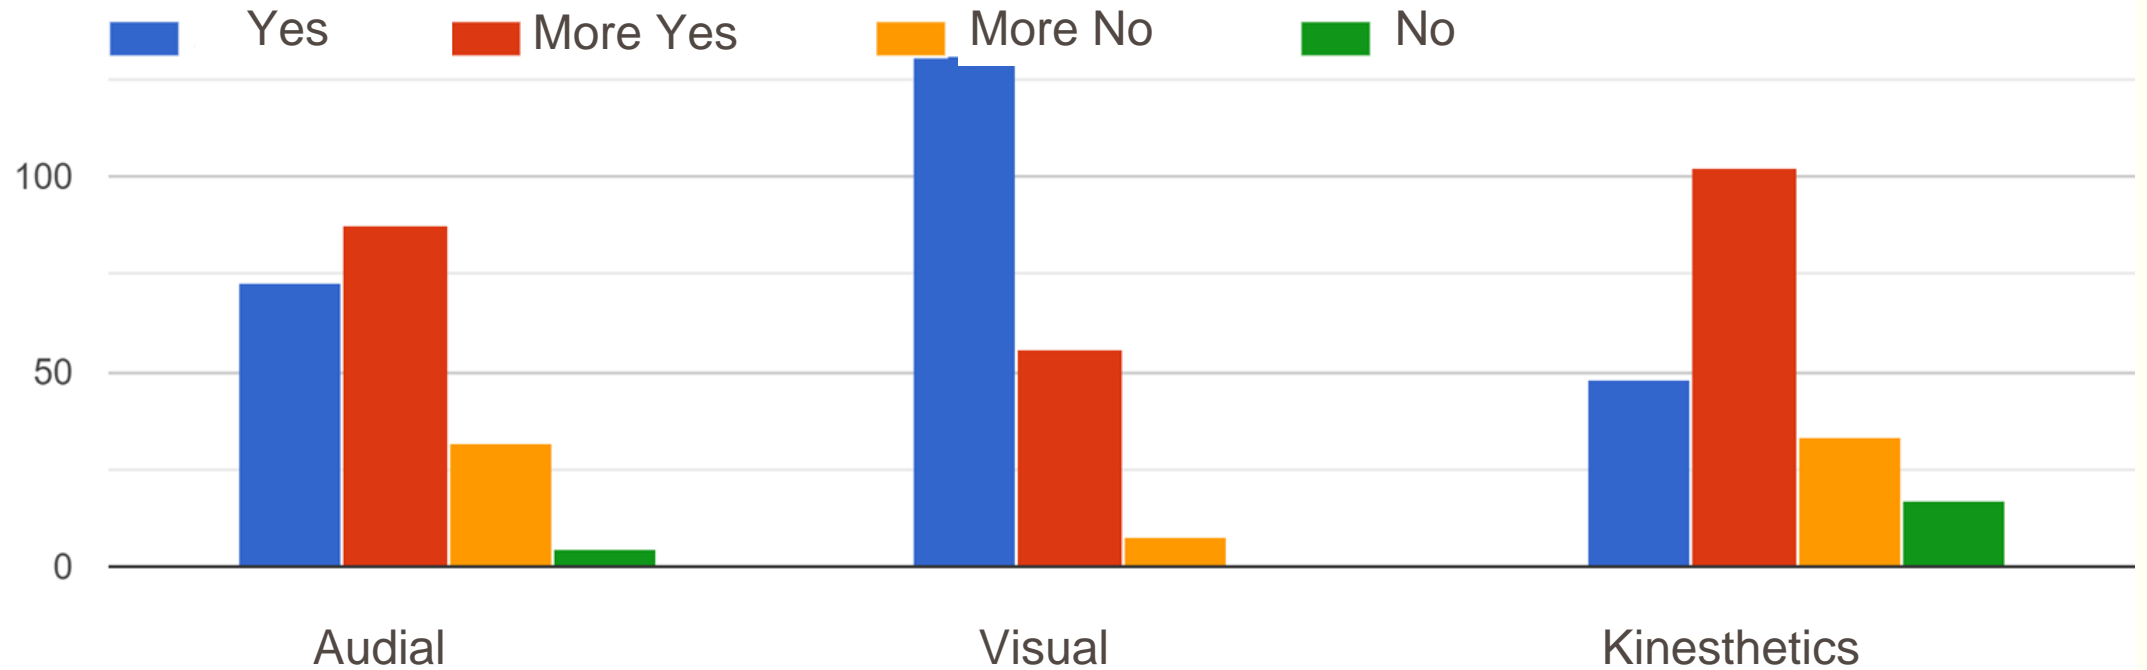

194 responses

# Which perceptual type learning materials helped you learn the topic better?

---

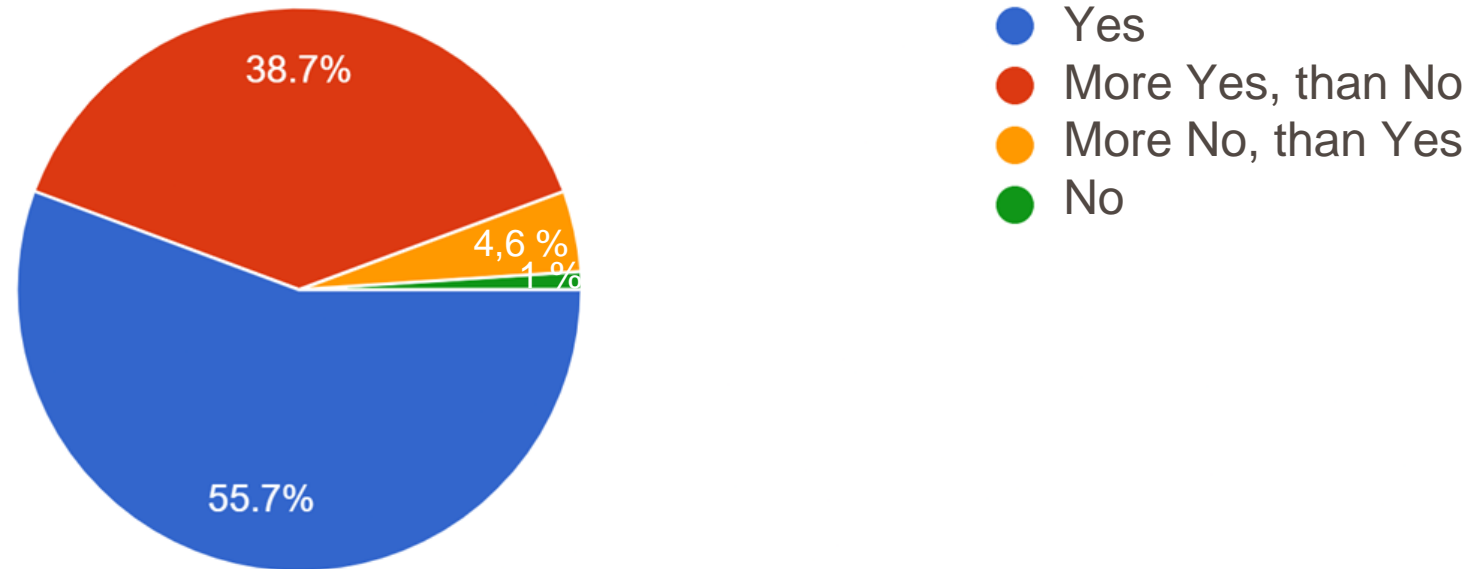

---

# Were the learning materials enough to learn the topic?

---

194 responses

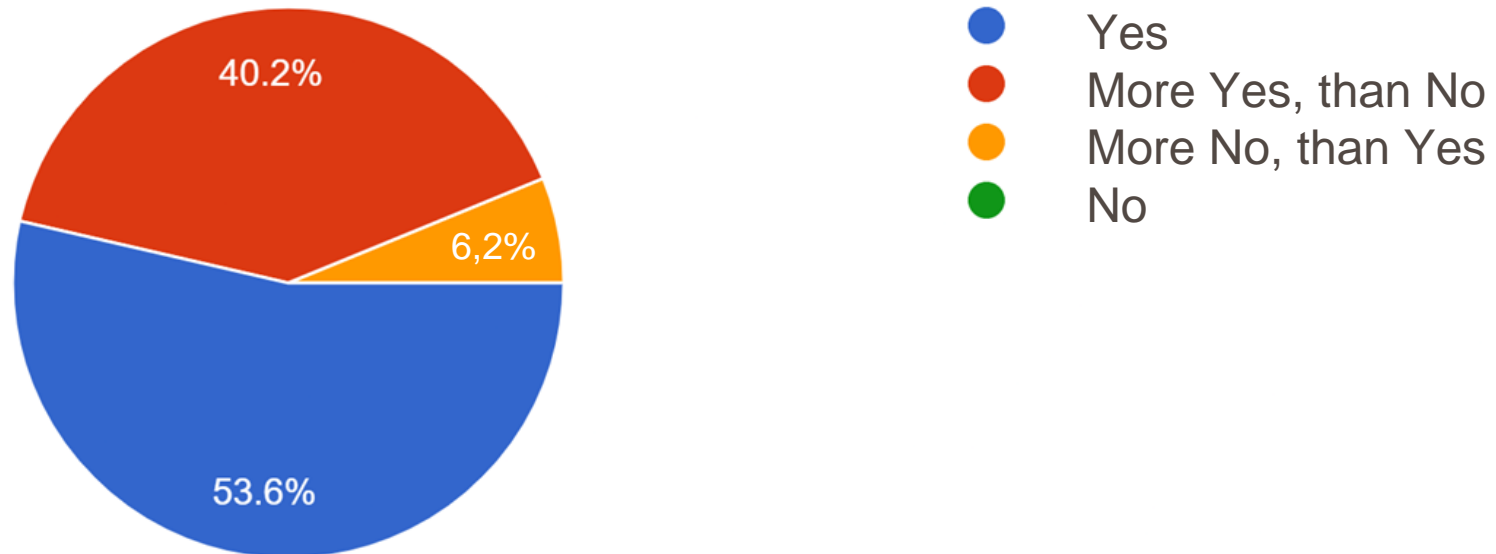

# Were the posted learning materials clearly understandable?

---

194 responses

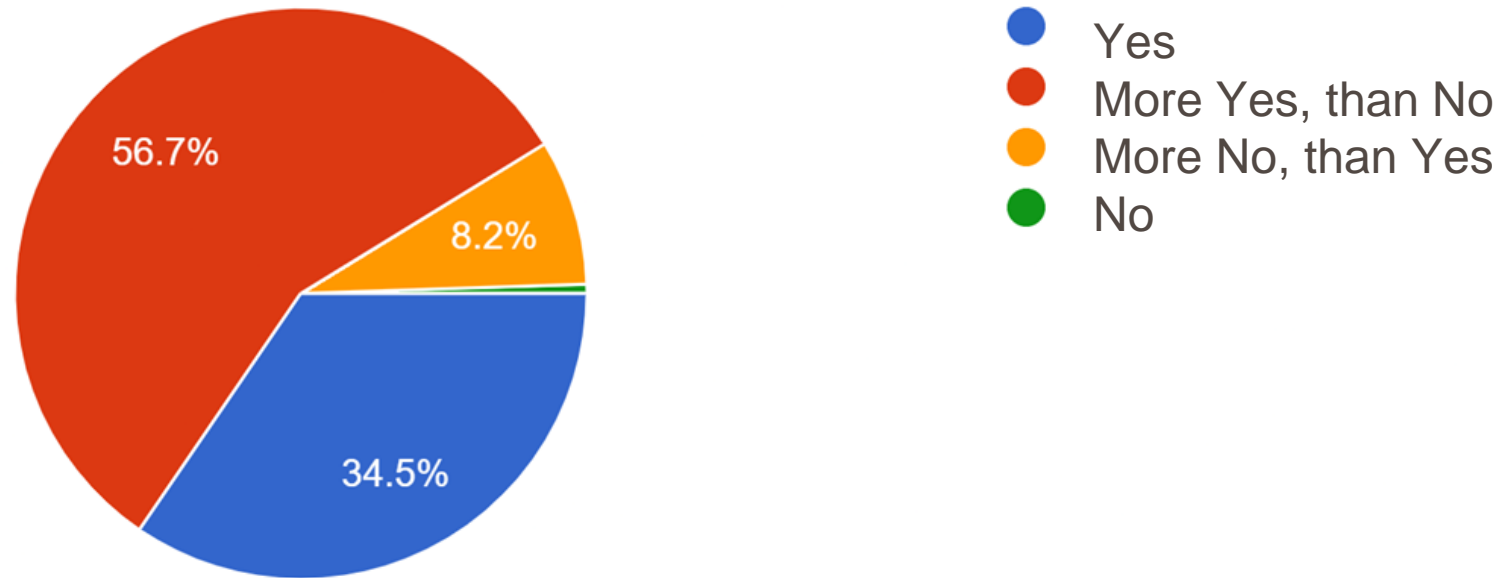

# Were these materials easier to understand than those previously available at the beginning of the school year?

---

---

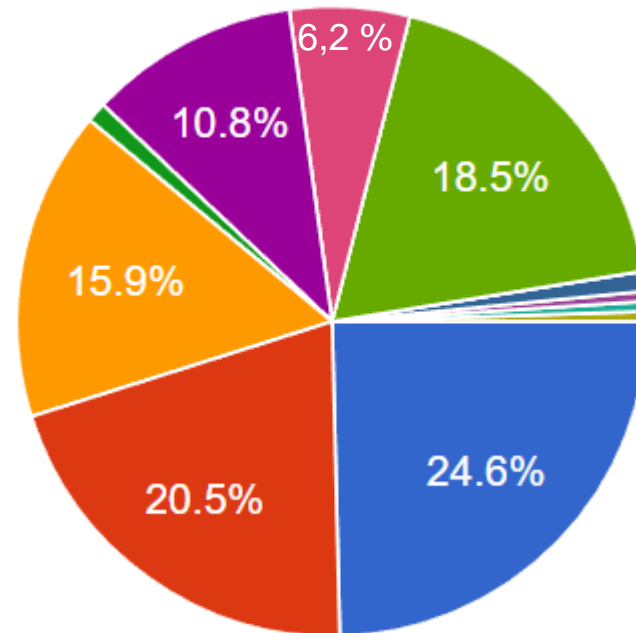

194 responses

# What kind of learning materials help you to understand the learning material best?

---

194 responses

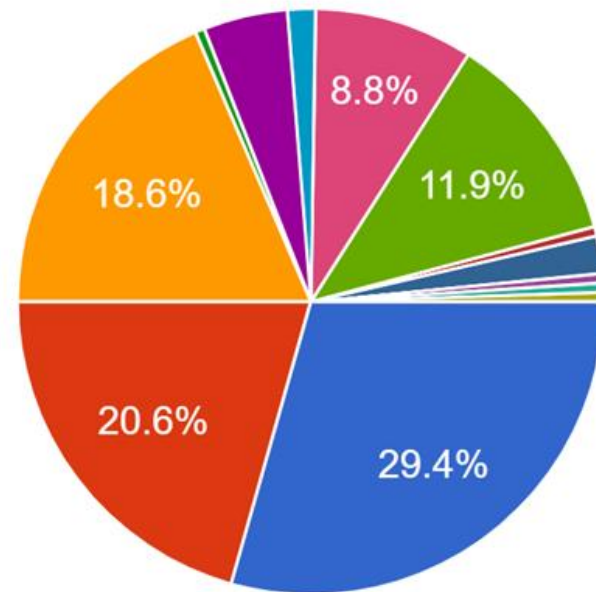

- Laboratory works
- Experiments and simulations
- Teacher's presentations, practical tasks, explanatory pedagogue lectures (online lessons).
- Examples
- Lectures, educational videos, theories documents, additional links to the topic

- Video materials
- Teacher's presentations
- Pictures/photos
- Charts
- Practical tasks
- Music
- Explanatory lectures of the pedagogue
- Online hours

# What kind of teaching materials would you like the teacher to offer more in the course!

---

194 responses

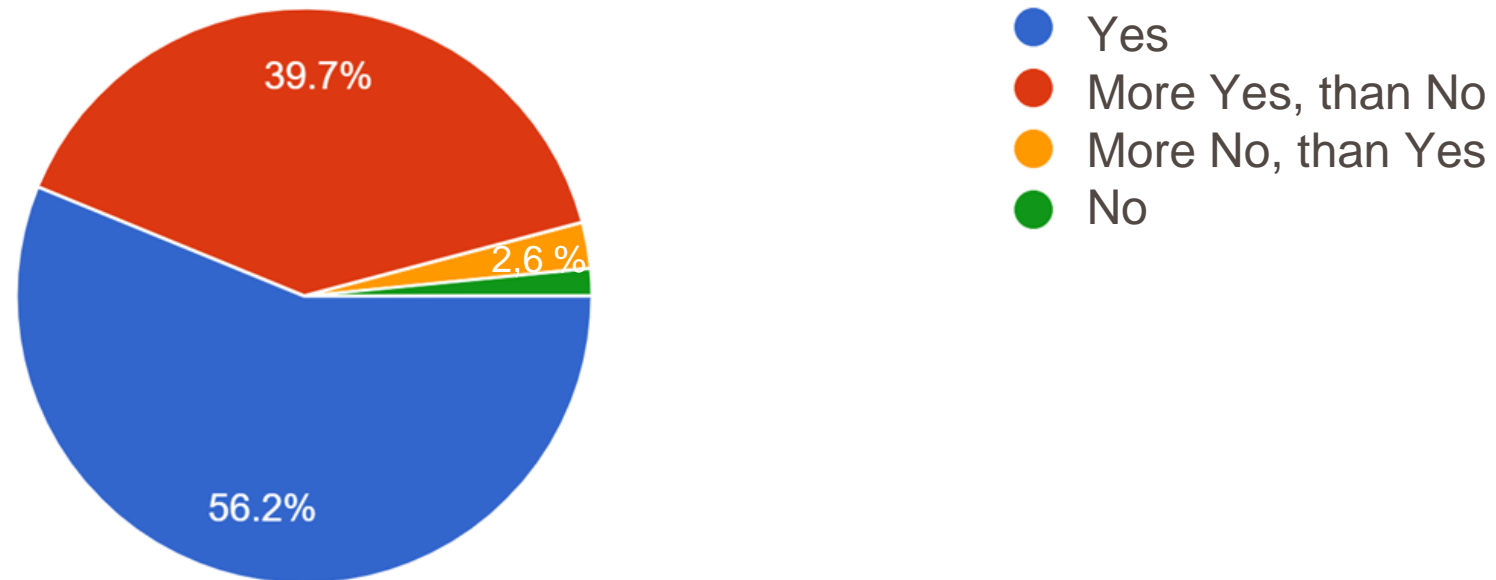

- Video materials
- Teacher's presentations
- Pictures/photos
- Charts
- Practical tasks
- Music
- Explanatory lectures of the pedagogue
- Online hours
- Laboratory works
- Experiments and simulations
- Teacher's presentations, practical tasks, explanatory pedagogue lectures (online lessons).
- Examples
- Lectures, educational videos, theories documents, additional links to the topic

# Are such advanced learning materials to suit all perceptual types motivating you to learn?

---

194 responses

# Recommendations for the teacher to improve the future work

---

## Good

1. Most answered that there are no recommendations, everything is satisfactory
2. The teacher works in full capacity
3. Love that live class recordings are available
4. Like that the theory is presented in photo and video format

## Need to improve

1. Ask more tests at [www.uzdevumi.lv](http://www.uzdevumi.lv)
2. Want more presentation, photo, video materials
3. More distance lessons
4. To learn the new subject with the help of games
5. Less readable text
6. Design the MOODLE course to make it easier to find the week
7. Explain more about the topics and tasks related to the test
8. Explain similar examples before the test in class
9. Be positive and patient

THANK YOU FOR YOUR ATTENTION!
